

5.

$$7\text{ m} + 9\text{ c} + 5\text{ m} - 2\text{ c}$$

$$11\text{ c} + 2\text{ m}$$

$$11\text{ c} + 12\text{ m}$$

$$7\text{ c} + 12\text{ m}$$

$$11\text{ c} + 13\text{ m}$$

**Solution**

$$7\text{ m} + 9\text{ c} + 5\text{ m} - 2\text{ c}$$

$$= (7\text{ m} + 5\text{ m}) + (9\text{ c} - 2\text{ c})$$

$$= 12\text{ m} + 7\text{ c}$$
