

4.

4. There are 3 sides to fence, two sides with length b and one side with length a :

$$a+b+b=3226 \Rightarrow a=3226-2b$$

Now compute the area:

$$\text{area}=a \times b = (1-2b) b = 3226 b - 2 b^2$$

Notice the Parabolic equation, compute the vertex:

$$\text{vertex} = \left(\frac{1613}{2} \text{ yards}, \frac{2601769}{2} \text{ yards}^2 \right)$$

Square the unit for vertex's vertical coordinate since it is a quadratic.
