

4.

4. Since the fences enclose a rectangular plot without one side, two sides have length b and one side has length a :

$$a + b + b = 1026 \implies a = 1026 - 2b$$

the area:

$$\text{area} = a \times b = (1026 - 2b)b = 1026b - 2b^2$$

Note that the formula is for parabola. Now find the vertex:

$$\text{vertex} = \left(\frac{513}{2} \text{ m}, \frac{263169}{2} \text{ m}^2 \right)$$

Square the unit for vertex's vertical coordinate since it is a quadratic.
