

جدي مجموعة حل المعادلات الآتية في ص:

a. $7g + 5 = 47$

b. $q - 7 = 6$

$$\begin{aligned} g &= 9 \\ q &= 13 \end{aligned}$$

$$\begin{aligned} g &= 9 \\ q &= -1 \end{aligned}$$

$$\begin{aligned} g &= 6 \\ q &= 13 \end{aligned}$$

$$\begin{aligned} g &= 6 \\ q &= -1 \end{aligned}$$

Solution

a. $7g + 5 = 47$

$$7g = 47 - 5$$

$$g = \frac{42}{7}$$

$$g = 6$$

b. $q - 7 = 6$

$$q = 6 + 7$$

$$q = 13$$
