

جدي مجموعة حل المعادلات الآتية في ص:

a.  $6u + 1 = 25$

b.  $m - 6 = 4$

$$\begin{aligned} u &= 7 \\ m &= 10 \end{aligned}$$

$$\begin{aligned} u &= 7 \\ m &= -2 \end{aligned}$$

$$\begin{aligned} u &= 4 \\ m &= 10 \end{aligned}$$

$$\begin{aligned} u &= 4 \\ m &= -2 \end{aligned}$$

**Solution**

a.  $6u + 1 = 25$

$$6u = 25 - 1$$

$$u = \frac{24}{6}$$

$$u = 4$$

b.  $m - 6 = 4$

$$m = 4 + 6$$

$$m = 10$$
