

6. Given the graph of function w , which of the following choices is correct?

w-intercept = (0,0)	range of w=[-18,0]	e-intercept = (0,0) , (8,0)
w(-2)=-5	domain of w=[-3,8]	w(-3) is negative
w(2) is positive	w(8)=0	w(0)=0

domain of w=[-2,9]	e-intercept = (0,0) , (8,0)	w(2)=-8
w(5) is negative	w(8)=0	w-intercept = (0,0)
range of w=[-19,-1]	w(-2) is negative	w(0)=0

w(2) is negative	w(5)=-18	range of w=[-18,0]
w(-2) is negative	w-intercept = (0,0)	domain of w=[-3,8]
w(-3)=-7	e-intercept = (0,0) , (8,0)	w(0)=0

domain of w=[-3,8]	w(0)=0	w(5)=-18
w-intercept = (0,1)	e-intercept = (0,0)	range of w=[-18,0]
w(-3) is negative	w(8)=-1	w(2) is negative

Solution
