

جدي مجموعة حل المعادلات الآتية في ص:

a.  $8j + 4 = 44$

b.  $m - 8 = 5$

$$\begin{aligned} j &= 8 \\ m &= 13 \end{aligned}$$

$$\begin{aligned} j &= 8 \\ m &= -3 \end{aligned}$$

$$\begin{aligned} j &= 5 \\ m &= 13 \end{aligned}$$

$$\begin{aligned} j &= 5 \\ m &= -3 \end{aligned}$$

**Solution**

a.  $8j + 4 = 44$

$$8j = 44 - 4$$

$$j = \frac{40}{8}$$

$$j = 5$$

b.  $m - 8 = 5$

$$m = 5 + 8$$

$$m = 13$$
