

1.

1. There are 3 sides to fence, two sides with length b and one side with length a :

$$a+b+b=3611 \Rightarrow a=3611-2b$$

Now compute the area:

$$\text{area}=a \times b = (1-2b)b = 3611b - 2b^2$$

Notice the Parabolic formula, compute the vertex:

$$\text{vertex} = \left(\frac{3611}{4} \text{ yd} , \frac{13039321}{8} \text{ yd}^2 \right)$$

Square the unit for vertex's vertical coordinate since it is a quadratic.
