

2. The function whose graph is  $x=r^3$  , and is shifted to the right 6 units is:

$$x = r^3 - 6$$

$$x = (r+6)^3$$

$$x = (r-6)^3$$

$$x = r^3 + 6$$

**Solution**

After shifting to the right 6 units, the function becomes:  $x = (r-6)^3$
