$$(h-3) (h^2+6 h+9)$$

 $(h-3) (h^2+3 h+9)$

 $h^{3}-27$

$$(h-3) (h^2-3 h+9)$$

الحل:

 $h^{3}-27$

$$= h^3 - 3^3$$

 $= (h-3)$

=
$$(h-3) (h^2+(h) (3) + (3)^2)$$

= $(h-3) (h^2+3h+9)$
