$$(n-3) (n^2+6 n+9)$$

 $(n-3) (n^2+3 n+9)$

 $= (n-3) (n^2+3 n+9)$

$$(n-3) (n^2-3 n+9)$$

 $n^{3}-27$

الحل:

=
$$n^3-3^3$$

= $(n-3)(n^2+(n)(3)+(3)^2)$
