# Plotting the Parabola

How to plot : $g(x) = a\,x^2 + b\,x + c$
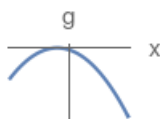

Step 1.
Examine the sign for the leading coefficent

If a $>$ 0 then the valley shape:
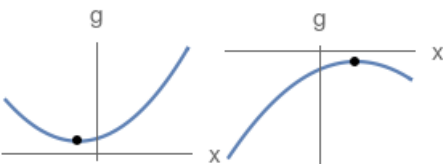

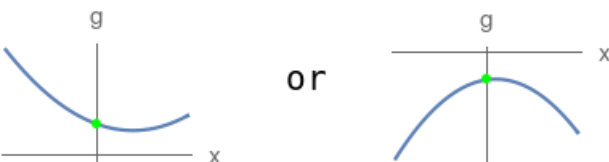

If a $<$ 0 then the hill shape:

Step 2.
Compute the vertex: $\left(-\dfrac{b}{2a}, g\left(-\dfrac{b}{2a}\right)\right)$

Step 3.
Compute the g-intercept by setting x=0, $0^2\,a + 0\,b + c = c$

or

Step 4.
Compute the x-intercepts by solving: $a\,x^2 + b\,x + c = 0$

or

Step 5.
Sketch a rough plot, try to connect vertex to intercepts:

or
