3. جدي مجموعة حل المعادلات الآتية في ص:

a. $7h + 2 = 23$

b. $p - 7 = 3$

$\boxed{\begin{array}{l} h = 6 \\ p = 10 \end{array}}$

$\boxed{\begin{array}{l} h = 6 \\ p = -4 \end{array}}$

$\boxed{\begin{array}{l} h = 3 \\ p = 10 \end{array}}$

$\boxed{\begin{array}{l} h = 3 \\ p = -4 \end{array}}$

Solution

a. $7h + 2 = 23$

$7h = 23 - 2$

$h = \frac{21}{7}$

$h = 3$

b. $p - 7 = 3$

$p = 3 + 7$

$p = 10$
