1.

The domain is all values that f is allowed to be.
Since I can't divide by zero (division by zero isn't allowed,
I need to find all values of f that would cause division by zero.
The domain will then be all other f-values.
 When is this denominator equal to zero?
$f^2 - 25 = 0$
$f = \pm 5$ then the domain of g is $\{f \mid f \neq 5 \text{ or } -5\}$
