Plotting the Parabola

How to plot : $e(t) = a\,t^2 + b\,t + c$
Step 1.

Examine the sign for the leading coefficent

If a $>$ 0 then the valley shape:

If a $<$ 0 then the hill shape:

Step 2.

Compute the vertex: $\left(-\dfrac{b}{2a}, e\left(-\dfrac{b}{2a}\right)\right)$

Step 3.

Compute the e-intercept by setting t=0, $0^2 a + 0\,b + c = c$

   or

Step 4.

Compute the t-intercepts by solving: $a\,t^2 + b\,t + c = 0$

   or

Step 5.

Sketch a rough plot, try to connect vertex to intercepts:

   or
